| Description    | Malaysia's National Disaster Command Centre (NDCC) reported on 09 December that over 700 people have evacuated their homes after flooding in Johor State. Most of those affected were in Kota Tinggi. A second wave of floods occurred in the state from 14 December, displacing around 4,000 people, which later increased to 10,000. The worst affected districts were Mersing, Kota Tinggi and Kluang. |
